

Steel Track UNDERCARRIAGE

For Cat® 259B Compact Track Loaders

Supertrak is proud to offer an Industry first Steel Track Conversion Kits for your Caterpillar® 259B Compact Track Loaders. This kit utilizes the machines stock suspension and can be installed with 14" triple grouser pad.

Steel Tracks will decrease your Owning and Operating cost in application like Forestry, Recycling, Demolition, and use in aggregate material while increasing production of your CTL.
